Education

2023/10 – present	Master of Computer Application
Gautam Buddha Nagar, india	Galgotias University
Ayodhya, india	Bachelor of Science(Mathematics)
	Dr. Ram Manohar Lohia Awadh University

Profile

I'm Neeraj Pandey, a motivated and detail-oriented web developer with a strong foundation in HTML, CSS, JavaScript, React.js, and Bootstrap. As a fresher, I am eager to apply my skills to build responsive and dynamic web applications, while continuously learning and growing in a professional development environment.

Technical_Skills

Skills — Html | Csss | JavaScript | React.js | Bootstrap | Tailwind | Python | Sql

DataBase — Mysql ,Mongodb

others--- — Ms-Excel , Ms-word

Projects

Learning Management System(Lms)

I am currently developing a Learning Management System using React.js, focusing on building a responsive, user-friendly interface for students and instructors. My work involves integrating dynamic features, improving user experience, and ensuring seamless interaction with backend systems for efficient course management and performance tracking.

Portfolio

Developed a personal portfolio website showcasing my web development skills using HTML, CSS, JavaScript, React.js, and Bootstrap. The portfolio highlights my projects, technical abilities, and design sense, demonstrating my capability to create responsive and interactive user interfaces. Continuously updating it to reflect learning and professional growth.

Voice Biometric Authentication & Multilingual Translation

Created a Django project with voice-based authentication for secure login and add support for multiple languages using Django's tools and APIs.
